HELP PROSPECTIVE STUDENTS

No one understands your study experience better than you. The National Student Survey lets you share what's going well and what could be better. Think about the content of your course programme, the atmosphere and the study facilities.

How do I help prospective students?
When choosing a course programme, it helps to know what current students think of it. Through the National Student Survey, your views and those of your fellow students are shared on **Studiekeuze123.nl.** This helps prospective students compare programmes and make a choice that suits them.

What happens to my answers?
Your answers are combined with those of other students. Your institution receives the results and can see what's going well and where improvements are needed.
